

### Entertainment and Interaction

If your students don't enjoy a presentation then it will feel like a waste of their time, and any message, however valuable, will be lost. We have developed our show through years of experience and feedback from our audiences, and we are very proud of the regular comments we get that we were the highlight of the school year.

Our performers are enthusiastic young adults with dynamic personalities and wonderful chemistry on and off stage. Our show is filled with favorite songs from many different musical styles, and we inspire loads of audience participation and volunteers joining us up onstage. Students love our beatboxing, great harmonies, and cool & exciting vocal arrangements – they are amazed at the full-band sound generated by just three singers!

Our songs are enhanced with highly energetic, sometimes wacky choreography, and many of the musical styles lend themselves to hilarious dance moves and characterization during the songs and in between.

Quite simply, it's about the most fun you could have packed into an hour. Your students will walk away energized, smiling, inspired, and feeling GOOD!

*“Staff and students were highly engaged and involved from the first song through to the end of the show. The presentation was one of high energy, great songs, humour, and our students were left with a positive message. We felt the show provided something for every one of the audience members. What a great morning!”*

- Greg Hunter, Haysboro Elementary, Calgary, AB

*“Our students loved the high-energy, upbeat songs. The show was perfect for all of our Grades 1-8 students and captured their attention for the full hour. It was clear that you put a lot of time, thought and energy into the performance. You caught and held the attention of our senior students and also kept the younger grades from being restless. It was a great way to begin our new school year.”*

- Barbara Wright, Vice Principal, Pleasant Hill Community School, Saskatoon, SK

*“From the very first song, our students were completely engaged by the talented performers. Everyone was amazed that so many sounds could be made only by the singers themselves. There were many opportunities for audience participation and the students loved seeing some of their teachers being incorporated into the show.”*

- Susan Reddon, John T. Tuck Public School, Burlington, ON

*“We were absolutely delighted to have HOJA perform at our school - they had the audience roaring with FUN and laughter. Even the most serious of the staff and student body were involved. A favorite part for many was having a teacher up onstage doing a rap song with them. I strongly recommend HOJA for a great afternoon of FUN and musical entertainment!!!”*

- Riz Hemraj, Principal, Westerman Elementary, Surrey, BC

*“All members of the group brought a unique energy to the performance and the students embraced this. There was never a dull moment in the show, and the students and staff were often heard singing along and keeping time to the music.”*

- Miranda Low, Silverspring School, Saskatoon, SK

*“Your performance was one of this year's highlights. The music was terrific, and the performance was spellbinding. You had the students', staff's, and community members' complete attention from start to finish.”*

- Jacob Cowan, Principal, Hodgeville School, Hodgeville, SK
